These are clippings you asked to have returned - thanks for including them and our apologies for having kept them so long. Have copied some and excerpted from others. (Over)

Before filing pile of letters from you will check through them in case there was anything we forgot to answer - if there is will write later. Since we have enough to fill an envelope, wanted to get this lot off.

We were particularly grateful to have the ~~story~~ DATE from Parade on story carried by Calcutta paper 15 Jun 71, on plans for Nixon to visit China in 1972. Also the lovely cartoon of Nixon San as a samurai!

Je

In one of your letters you used "Jen," which is edging too dangerously close to Jenny. Watch it, friend - just once and I'll never speak to you again.
